

# Cihan TÜFEKÇİ

Sr.Exploration Geologist (Geothermal, Oil&Gas)

+90 505 628 03 55    cihantufekci@gmail.com

## EDUCATION

Bachelor of Science in Geology  
Ankara University (1999-2005)

## LANGUAGE

- English B2

## CERTIFICATES

- Project Management  
TOBB ETÜ - 2022
- Leadership Skills  
TOBB ETÜ - 2021

## COURSES

- Geothermal Sources Education  
JMO - 2022 & 2009

## SKILLS

- Leadership
- Strong analytical and problem-solving
- Teamwork and collaboration
- Excellent communication
- Time management
- Ability to work independently and as part of a team

## COMPUTER

- Arcgis
- Global Mapper
- Kingdom
- Petrel
- MS Office
- MS Project

## PROFILE

**Cihan Tüfekçi is a member of the team that discovered Turkey's hottest production well, which has a temperature of 308 degrees.**

I have a proven track record of success in identifying and evaluating potential geothermal and hydrocarbon resources. I am highly motivated and passionate about exploring and developing new opportunities. I am skilled in wildcat exploration and seismic interpretation. I possess excellent communication and team-working skills, as well as strong leadership, analytical and problem-solving abilities.

## WORK EXPERIENCE

### Sanko Enerji

Sep 2016 - Present

Senior Exploration Geologist / Geothermal - O&G

Key responsibilities:

- Evaluated new exploration and development projects
- Interpreted seismic data to identify potential geothermal reservoirs and hydrocarbon traps
- Created and developed geological models of geothermal and hydrocarbon reservoirs
- Worked as a project manager 325 Km2 3D, worked as project engineer 250 Km 2D seismic data acquisition projects
- Worked as a wellsite geologist (45 wells) and managed workover operations
- Contributed to the planning and execution of drilling programs
- Prepared technical reports and presentations for management and investors

### Meteor Jeotermal & Enel Green Power JV.

Nov 2008 - Mar 2016

Project Engineer & Wellsite Geologist

Key responsibilities:

- Conducted Pre-studies, geological, hydrogeological, tectonic, geochemical, geophysics, and drilling activities in all licensed areas
- Worked as a project geologist for Data acquisition and interpretation of magnetotelluric (MT) and gravity studies (1200 stations)
- Worked as an exploration geologist in Active tectonic, geological, and geothermal potential assessment studies with Prof. Dr. Ali KOÇYİĞİT.
